Feng Shui for Horses is an unusual, yet practical, guide for creating a lasting, more intimate relationship with your horse. With the premise that everything is energy, and becoming aware of that reality, we can teach ourselves to "tune in" to that energetic component and begin to relate to our horse as something much more than just an animal, and realize that 'something' is a part of us. Feng Shui for Horses not only has the capacity to transform our relationship with our horse and their energetic living environment, it also gives us the confidence to "listen" and act on the intuitive information we receive. By incorporating the aspects of flow, harmony, and balance found in Feng Shui, life begins to sing a song of well-being, which affects everything around us.
